About difficulties with getting a paper into the Royal society of Edinburgh. Phil
Trans has begun publishing again.

2

29.10.1944 V.H. Blackman to Dr Manton, 17 Berkely Place, Wimbledon, SW19
About Robert Brown ?. Usually based at Leeds, visiting London.

3

27.10.1939, F.O. Bower to Miss Manton, 2 The Crescent, Ripon, Yorkshire
'But in 1889 how curiously rudimentary the Botany that we taught there seems to
be today.'

Writer was President of the Botanical Society of Edinburgh in 1894.

'None the less I do think that the right spirit was there; and to me the great
pleasure now is to realise that through the influence of my most able pupil work
like yours is going on today.'

[Frederick Orpen Bower, 1855-1948, correspondence at Glasgow]

4

12.12.1950, Hulter to Professor Manton, Naturhistoriska Riksmuseet, Botaniska
Avdelningen, Stockholm 50

Thanking Manton for sending *Problems of Cytology and Evolution in
Pteridophyta*

5

07.11.1950, William Lang to Miss Manton, Westfield

Mentions the electron microscope. Also about proposed visit to Ceylon. Author
had spent some time there 50 yrs before.

[William Henry Lang, 1874-1960, letters to FO Bower at Glasgow]

6

8.11.1949, Westfield, W.H. Lang to Miss Manton

About proof copy of book.

7

6.3.1931, Natural History Museum, L.H.Leonard to Miss Manton

About a proposed trip to the Scilly Isles

8

11.9.1950, Den Haag, Emy Nicolai to Professor Manton

Has no botanical news to tell her. Appears to be preparing for a move from
Leiden to Leeds. Asks if the electron microscope is 'behaving.'

9

27.9.1958, illegible, possibly in Holland, Edith Robinson and Emy Nicolai to Professor Manton at Leeds University

10

18.4.1936, Dar El Nabati, Burg El Arab, Mariut, F.W. Oliver to Manton
About results of plant breeding.
[Francis Wall Oliver, 1864-1951]

11

18.10.1932, Kiel, G. Tischler to Miss Manton (cytologist and author of well known book)
Letter in German.
[Georg Tischler, author of *Allgemeine Pflanzekaryologie*, 1951]

12

21.12.1936, The Herbarium, Royal Botanic Gardens, Kew, Surrey, Turrill to Dr Manton
'I have looked into the Biscutella nomenclature and have consulted with Gilmour on the same.'
[William Bertram Turrill, 1890-1961, correspondence at Kew]

13

1.11.1932, The School of Agriculture, Melbourne University, Wadham to Dr. Manton
Refers to himself as a 'hybrid commercialist.' Interested in the work of Vavilov and his law of homologous series.

14

7.11.1950, T.B. Worthington to Miss Manton, Hillcrest, Roseneath Road, Kandy, Ceylon
About arrangements for trip - they have been sent and official letter of welcome by the government. Advising on footwear and precautions against leeches.
[Thomas Berkeley Worthington, d. 1970]

15

28.12.1938, Bedford Court Mansions, WC 1, tel. Museum, 0937.
About meeting of SEB. Also asking Manton if she could give a paper at the Brownian club.
K in the name somewhere.
