Collection	2003.62	An extensive collection of photographs and publications relating to Ferguson Pailin, a switchgear manufacturer for the electrical industry from 1913 to 2003. Most of the material relates to the company's products however there are a number of staff photographs and also information relating to Mottram Hall, Cheshire, which was purchased by Ferguson Pailin in 1939 to be used as a staff retreat.	c.1920-1990	Ferguson Pailin	Ferguson Pailin manufactured switchgear on the same site in Higher Openshaw from 1913 until the operation closed down in 2003, by which time Alstom owned the company. Founded by Samuel Ferguson and George Pailin, ex-employees of Ferranti, the business was essentially a	The collection was donated to The Museum of Science and Industry in 2003 by Ferguson Pailin	The collection mostly comprises photographic prints, negatives and albums, with the benefit of the original photographers' day-books. The images document the company products, but also includes many images of staff to reveal a vibrant company culture.
