

<b>Box listing number</b>	<b>Title</b>	<b>Dates</b>	<b>Level</b>	<b>Description</b>
YMS0167	Galloways Ltd Mill Construction Photographs	c. 1920s	File	Collection of black and white photographs of various mills under construction at Galloways Ltd.
YMS0167/01	Large mill engine under construction	c. 1920s	Item	Large mill (possibly a blowing engine) under construction at Galloways Ltd. 501 written in white on front, brief description written on back. Photo taken at ground level
YMS0167/02	Rolling mill engine under construction	c. 1920s	Item	Large engine under construction. Photo taken at a higher level looking over the mill. Person can be seen in far right of photo. 361 written in white on front
YMS0167/03	Steam engine under construction	c.1920s	Item	Large steam engine under construction. Photograph taken at slightly higher level. A lot going on in background - mill looks very cluttered. 438 written in white bottom left corner
YMS0167/04	Large steam engine	c. 1920s	Item	Large steam engine - completed. 535 written in white on front. Photo taken at ground level. Area immediately around engine is clear but large metal circles seen scattered in background.
YMS0167/05	Large steam engine	c. 1925	Item	Large steam engine, possibly a mill engine. Possibly a recent completion due to the new (shiny) appearance of materials. 172 written in white in bottom right corner. Photo taken at ground level.
YMS0167/06	Rolling mill engine under construction	c. 1920s	Item	Large mill engine under construction, photo taken at higher level, people visible behind window in background and also far left of photograph. 360 written in white on bottom right.
YMS0167/07	Rolling mill engine under construction	c. 1920s	Item	Duplicate of YMS0167/06. Galloways Ltd stamp on back.
YMS0167/08	Rolling mill engine	c. 1920s	Item	Steam driven controls and reversing gear on rolling mill engine. Very close up photograph taken on ground level. Materials look very new which suggests recent completion. 'Galloways Engineers Ltd' plaque fixed onto engine.
YMS0167/09	Rolling mill engine	c. 1920s	Item	Rolling mill engine completed, mill worker visible far right of photograph - appearance suggests middle aged. In the background, hung up coats are visible. Galloways plaque shown in centre of photo. Position of photograph suggests photographer was slightly higher than ground level
YMS0167/10	Reversing gear on rolling mill engine	c. 1920s	Item	Ground level photograph of recently completed rolling mill engine. Photograph focuses on the controls and plaque central to photograph.
YMS0167/11	Blowing engine at Skinningrove Steelworks	c. 1920s	Item	Ground level photograph of a large stationary blowing engine. Area around engine is clear and nothing else is visible in photograph. Creators stamp on back
YMS0167/12	Rolling mill under construction	c. 1920s	Item	Construction of a rolling mill. Photograph taken at much higher level to ensure visibility of entire mill. Closer inspection shows there may be a worker visible by far left staircase
YMS0167/13	Steam cylinders of blowing engine	c.1920s	Item	Close up ground level photograph of steam cylinders. Thick rope tied around machinery in bottom right. 504 written in white on far right of photo.

YMS0167/14	Rolling mill under construction	c.1920s	Item	Construction of rolling mill. Taken at higher level to show whole mill. Person slightly visible in far right - moving so figure is blurred but appears to be a man. 361 written in white on bottom right of photo.
YMS0167/15	Uniflow steam cylinder on large steam engine	c.1920s	Item	Small close up, ground level photograph of a uniflow steam cylinder on a large steam engine. Uniflow steam cylinders were popular in early 20th century.
YMS0167/16	Rolling mill engine under construction	c.1920s	Item	Wide shot of construction of a rolling steam engine. Taken at higher level to show whole engine. Office visible in background of photograph. 363 written in white on bottom right.
