

Governor has been obliged to leave his house and reside in a small thatched cottage - which are deemed the safest as they are generally made of wood and bound together by strings which renders them like a basket and well fitted for dwellings in hot countries - I have already mentioned in my fathers letter you need not write me after you receive this -

My kind respects to all your family particularly to Ed: Storey to whom I enclosed a letter in one I wrote to you about 4 or 5 months ago.

Believe Me Dear Mother Yours
affectionately
Rob: Stephenson
(I will write again soon)
